

Solo Exercise: Optional Homework

To help Superstore better understand their data, you will write queries that answer the questions below:

1. Which products are made by Xerox(hint: product_name contains xerox)?
2. How many countries are in our Western Europe sub-region?
3. How many customers in our consumer segment have names that start with the letter "S"?
4. What is the total number of items (not orders) returned with some reason given?
5. How many orders used Standard Shipping and a discount code?
